

The Last Train Journey

On a cold winter evening, Daniel arrived at the old railway station carrying a small leather bag.
The station was nearly empty except for a few passengers waiting quietly on wooden benches.
A loud whistle echoed through the air as the final train of the night slowly entered the platform.

Language modeling refers to the process of guessing the upcoming word or character in a text sequence by analyzing the words that came before it.

Next word prediction

[1, 2, 3, 4]

sequence

[1, 2]

[1, 2, 3]

[1, 2, 3, 4]

~~Some~~
~~or both~~

[1, 2] 0, 1, 2

[1, 2, 3] 0, 1, 2, 3

5/1 → [1, 2, 3, 4] 1, 2, 3, 4

[5, 6]

[5, 6, 7]
